

Product Information:

Microbes present in FB Speed compost-Bact 1.5 % AS

Bacillus subtilis, Bacillus polymyxa, Cellumonas fimi and Steptomycetes spp.

Composition

- 1. *Bacillus subtilis,*
Bacillus polymyxa,
Cellumonas fimi and
Steptomyces spp...... 1.5 % (V/V)
- 2. Water based carrier QS to make 100%

Microbes present in FB Speed compost-fung 10 % SC

Aspergillus awamoori, A.oryzae, A.niger, A.falvus, Penecillium jenthenellium, Paecilonyces spp, Paecilomyces lilacinus, Chetomimum globosum, Phenerochete chrysosporium, Trichoderma ressay, T. lignorum

Composition

- 1. *Aspergillus awamoori, A.oryzae, A.niger,*
A.falvus, Penecillium jenthenellium,
Paecilonyces spp, Paecilomyces lilacinus,
Chetomimum globosum, Phenerochete chrysosporium,
Trichoderma ressay, T. lignorum 10 % (V/V)
- 2. Emulsifier 10 % (V/V)
- 3. Water base carrier..... 80 %

Maturity of compost

Mature compost look dark brown in color, there is no small, no heat etc

Packing available

- Liquid form – 100 ml, 500 ml, 1 lit.

Potency:

For FB Speed compost-bact 2×10^{10} cells/ml
For FB Speed compost-fung 1×10^9 cells/ml

Self life: - 2 years

PACBIOFUNG BACT
